## CORRIGENDUM

### AUSTRALIAN STANDARD CLASSIFICATION OF COUNTRIES FOR SOCIAL STATISTICS (ASCCSS)
### CATALOGUE NO. 1269.0 (Issued 16 October 1990)

At the time the Australian Standard Classification of Countries for Social Statistics (ASCCSS) was published, the International Organization for Standardization (ISO) had not yet decided the codes for the newly unified countries of Germany and Yemen.

On the basis of the best advice available at the time, the ABS retained the numerical code of the Federal Republic of Germany (280) and the Yemen Arab Republic (886) for the entities Germany and Yemen in the ASCCSS and ASCCSS Revision 1.01 which were published concurrently.

The ISO 3166 Maintenance Agency Secretariat has now advised the ABS of the new country codes for Germany and Yemen. The codes for these two entities are:

| | Numeric Code |
|---|---|
| Germany | 276 |
| Yemen | 887 |

A list of amendments to the ASCCSS necessitated by the above ISO code changes is attached. The ABS recommends that users of the ISO numerical codes employ the revised codes in their statistical systems.

# ASCCSS CORRIGENDUM

## AMENDMENTS RESULTING FROM ISO NUMERICAL CODE CHANGES FOR GERMANY AND YEMEN

### PART 3: CODING INDEXES

(a)   The following index entries were coded to the German Democratic Republic (ASCCSS code 2304 and ISO code 278) in the ASCCSS classification document.  In ASCCSS Revision 1.01, which dealt with the unification of Germany and was published concurrently with the ASCCSS, the codes of these entries were changed to those of the Federal Republic of Germany (ASCCSS code 2305 and ISO code 280). The correct codes for these entries are now ASCCSS code 2305 and ISO code 276.
